## How to read the yardages:

1. Course Measurement Units mentioned in the COURSE NAME at the top (in brackets). All the distances written/marked on the Hole Image are in similar measurement units.

You can set the GPS Distance from ball position to green middle in real time according to your preferred choice of measurement unit (Yards or Meters) in Hole1.

# Golfing Guide

- Yardages marked for all hazards from each tee of the hole on the Hole image itself according to course unit.

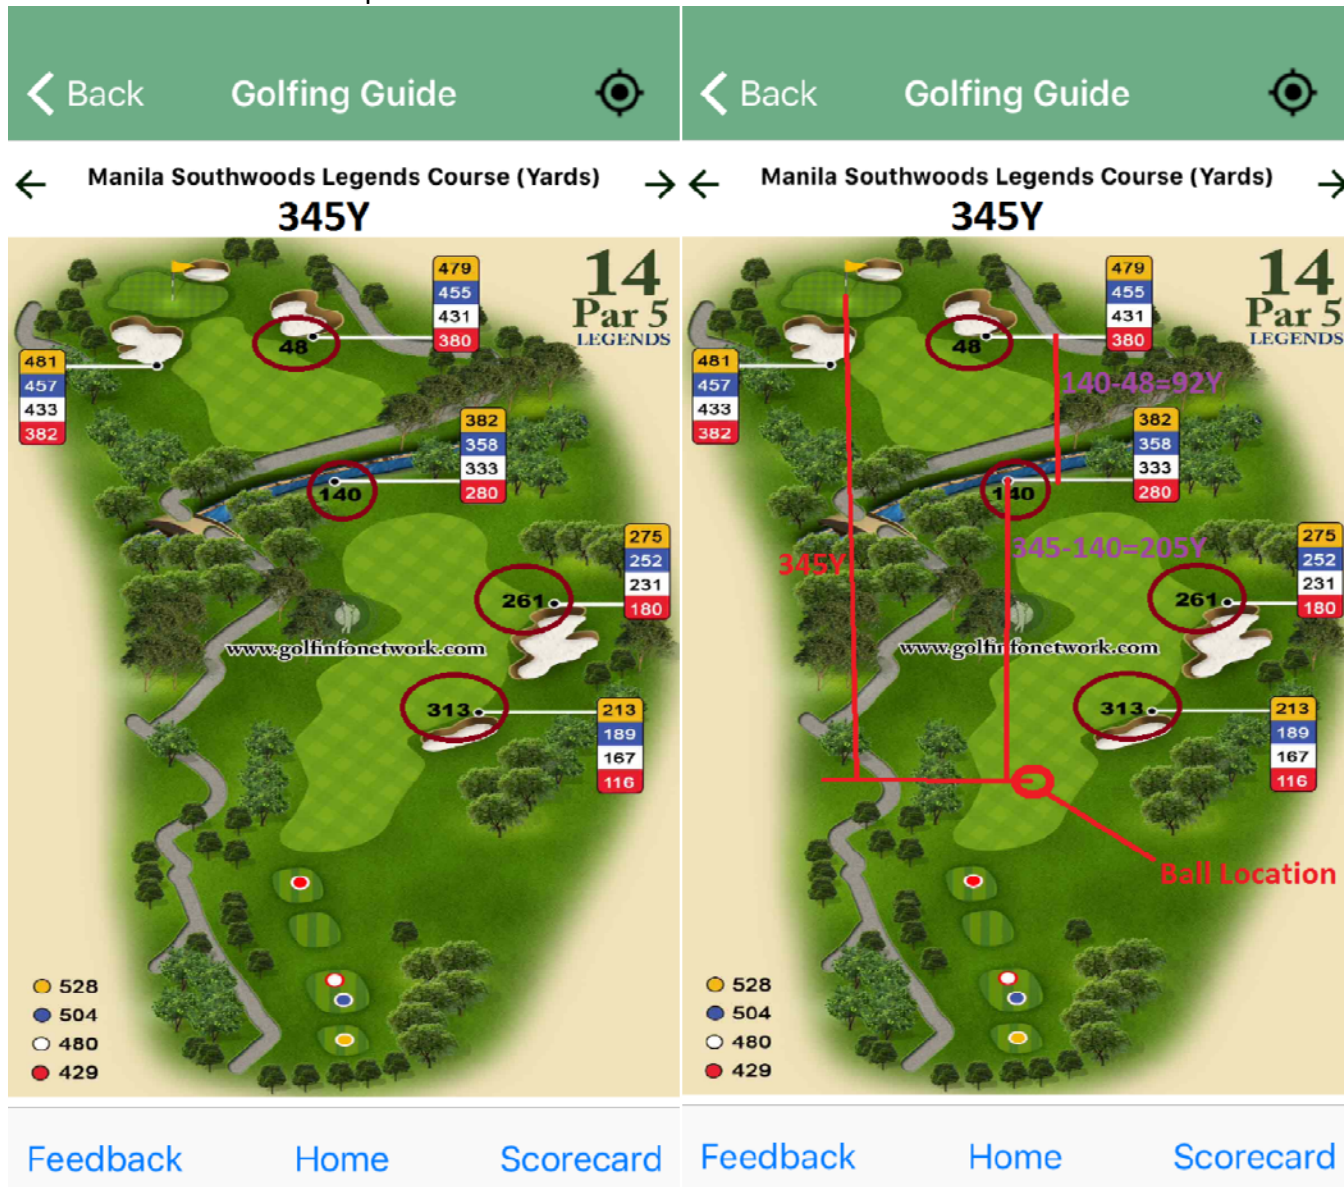

- Green centre distances from Tees are given in lower left corner of the Hole image, where we are providing green centre distance from all colour marked tees.
